ATTESTATION

First I've been Fabrice VAUCLAIR's teacher as he was studying to be a skipper .
He was a nice and clever student and he's got his certificate very easily. Moreover, his experience in his early navigation, especially on "old gaffer" ships, was an interesting purpose to share with other students.

Then, as I was very satisfied with this attitude, I took Fabrice on board my own sailing ship "Vieux Crabe", to work as a seaman during summer time.

"Vieux Crabe" is an old tuna ship, 24 meters long, 50 GT, sailing with passengers from south of France to Spain, Corsica and French Riviera.

During two months boarding, Fabrice was a perfect sailor, hard worker, reliable, always ready to help, with a good experience of navigation and human relations.

He was able to manoeuvre the ship by himself and very kind with passengers and kids.

In fact, he was like a chief mate and able to be a captain.

I do think he his a very efficient sailor, as good in watchkeeping than in manoeuvre, maintenance or management.
